ACCREDITATION RENEWAL: GUIDELINES

1. GUIDELINES FOR PREPARING THE STUDENT REPORT

This document has been drawn up to provide support to those responsible for coordinating the Student Report for the accreditation of official bachelor's, master's and doctoral degrees at universities and higher arts education institutions in the Valencian Community. This document should serve as a template for its preparation.

The Student Report must include, as a minimum, the following **sections**:

1. **Unambiguous identification of the degree programme** (name, institution, university, RUCT code).
2. **Authorship of the report**, stating the name of the person coordinating the report (along with their position within the student organisation) and the names of those who have contributed to its drafting (along with their names and year of study).
3. **A description of the process followed and the methodology or methodologies used** to compile the report: the methods employed to gather feedback from students on the degree programme, including an overall assessment of the participants' level of satisfaction with the process.
4. **An assessment of the specific dimensions of the degree programme's quality**, including, at a minimum, aspects relating to (1) the management and organisation of the degree programme, (2) teaching, learning and assessment, (3) compulsory external placements, (4) final-year project/master's thesis/doctoral thesis, (5) learning support resources and services, (6) the academic environment and student participation, and (7) internationalisation.
5. **Overall conclusions on the analysis of the student body**, incorporating, where applicable, good practices, strengths and proposals for improvement.
6. The report must conclude with **the date on which it was approved, the date on which it was submitted to AVAP, and the signature of the person or persons coordinating the work**.

It is important to note that the content of point 4 of the Student Report must be based exclusively on data and information obtained through (1) the application of qualitative and quantitative methodologies carried out by the students themselves, (2) generated by the university's internal quality assurance system, or (3) available from verified data platforms.

The report must not contain opinions or information that are not based on evidence or on sources identified within the report itself.

2. CHANGE CONTROL

Edition	Date	Description of the amendment
V.2.	1 July 2024	Start of version control for the document Amendments: • Removal of the procedure for reporting factual errors.
V.3.	1 July 2025	Review of the document with no changes.
V.4.	15 June 2026	• Language has been adapted to reflect a gender perspective throughout the document.
